DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 7/7/03 has been considered by the examiner.

Additional Prior Art Cited

Boardman et al discloses a read-write head for an optical tape recorder having rotating lenses.

Allowable Subject Matter

Claims 1-36 are allowed.

The following is an examiner's statement of reasons for allowance: Hsu discloses an optical scanning apparatus having a plurality of f- θ lenses for producing a linear scan. Hsu does not disclose at least a plurality of f- θ lenses each corresponding to a different wavelength. There is no motivation to modify the optical scanning apparatus in Hsu so as to include a plurality of light sources for generating a plurality of light beams of different wavelengths, a beam combiner for combining the light beams, and a plurality of f- θ lenses each corresponding to a different wavelength in order to generate linear scanning at a constant speed (claim 1), to scan the light beams corresponding to different wavelengths at different positions (claims 13), and to scan the light beams with different wavelengths at the same positions simultaneously (claims 24).
